Volunteer with LEO Africa!

WILDLIFE MONITORING, CONSERVATION, SUSTAINABLE LIVING
VOLUNTEER PROJECT

LEO Africa

is a wildlife monitoring, conservation and sustainable living volunteer project based in a pristine 15000 hectares private game reserve close to the Kruger National Park.

As a volunteer, you will have the exclusive opportunity to actively help our experienced Rangers:

- In the field: while being on two monitoring drives a day, you will assist us collecting data on Big 5 & endangered species, conduct conservation work, take photos to create ID kits, assist servicing camera traps, bush walks, anti-poaching support and much more!
- At base: inserting the data collected in the field on the pc, basic house duties, processing camera traps, learn about sustainable living and much more!
- Economically: LEO Africa solely relies on the income from the Volunteers to provide our vital services to the reserve.

VOLUNTEER NOW for a once in a lifetime real African Experience!

What you will experience:

- ✓ Get involved with wildlife monitoring & Conservation
- ✓ Two monitoring drives a day
- ✓ Sleep out under the stars
- ✓ Anti-poaching support
- ✓ Microlight Flights
- ✓ Bush walks & more!
