AN ENDURING COMMITMENT TO safeguarding Africa's wildlife & wilderness

Singita is a conservation and ecotourism brand that has been helping to preserve Africa's untouched natural spaces for almost three decades and we offer guests exceptional safari experiences at 16 award-winning lodges and camps across four countries.

In partnership with non-profit Funds & Trusts who implement strategic conservation projects in each of the regions in which we operate, our 100-year purpose is to preserve and protect large parts of African wilderness for future generations.

We are steadfast in our commitment to protect unique ecosystems, help recover critically endangered species and ensure no further extinction, benefit neighbouring communities under our care, and contribute positively to the reduction of GHG emissions through our climate commitments.

Travellers choose to stay at Singita because of the expansive space and beauty of our remote locations. They value the restorative serenity of these pristine wilderness areas, as well as the limited guest and vehicle numbers, extraordinarily consistent game viewing and exceptional & intuitive care that is taken of each guest during their stay. When they depart, they are transformed for life and deeply moved by their connection and contribution to the legacy of this continent.

“Singita’s ethos of ‘touching the Earth lightly’ is no longer just a forward-thinking principle; it is imperative to our survival, and that of the land, wildlife and communities under our care.”

CONSERVATION as a way of life

Singita has been championing conservation in Africa from its inception.

The critical conservation work we carry out with our non-profit Funds & Trusts is aimed at restoring, enhancing and protecting the biodiversity of the ecosystems under our care. Our sustainable conservation model helps to balance tourism in all of the regions in which we operate.

THE GRUMETI FUND

In Tanzania, Singita partners with the Grumeti Fund, a non-profit organization carrying out wildlife conservation and community development work in the western corridor of the Serengeti ecosystem, where Singita Sabora Tented Camp is situated. The Grumeti Fund works tirelessly to ensure the long-term sustainability of the 350,000 acre Singita Grumeti and their vision is a world in which people and wildlife live together sustainably, forever.
