Enjoy Ethiopian Diversity

RESPONSIBLE TRAVEL POLICY

Dear Esteemed Clients and Business Partners,

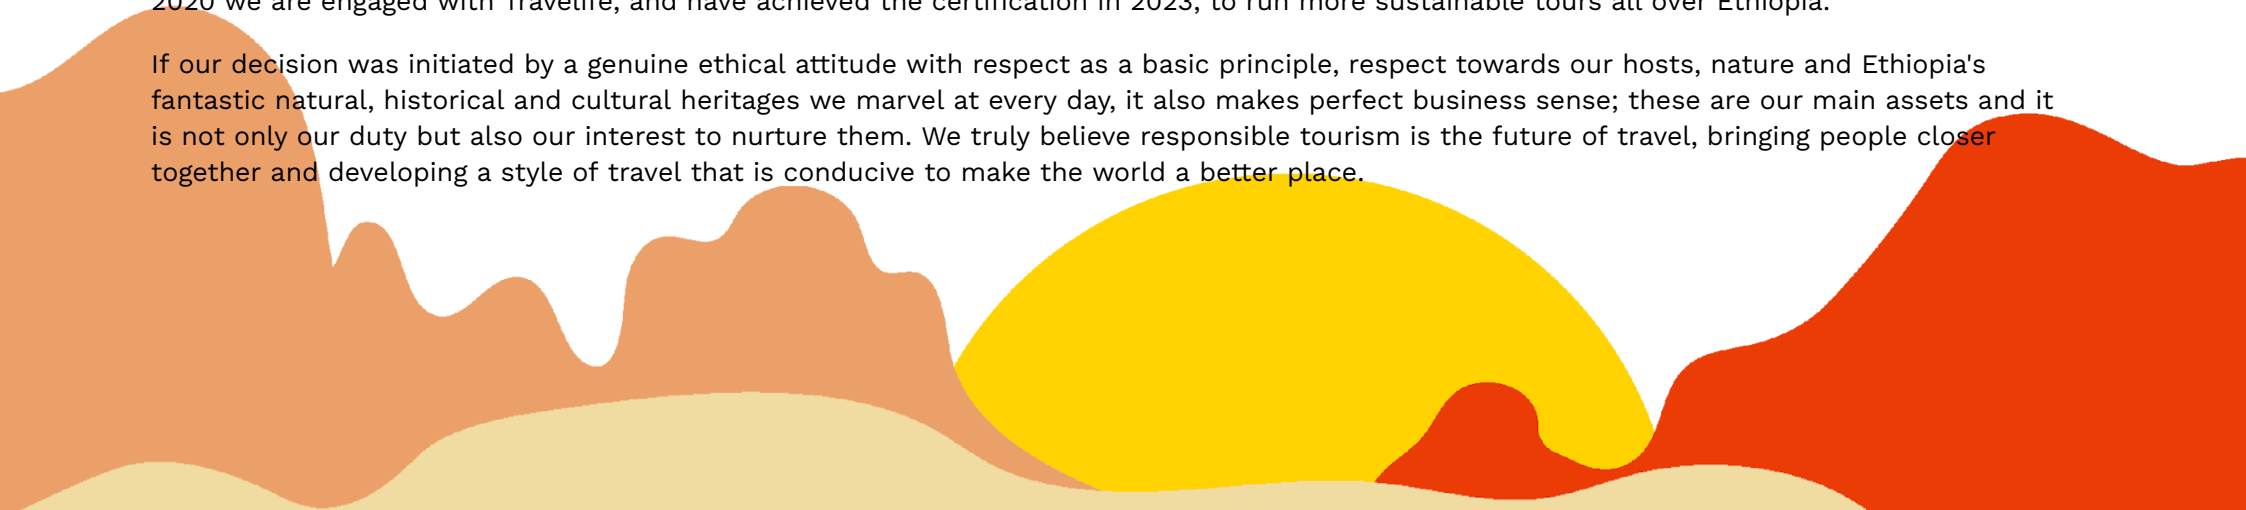

I hereby wish to share with you our commitment to Responsible Travel. Our sector of activity is probably one of the most rewarding; we are designing services that convey happiness, unique experiences and knowledge about Ethiopia's history, nature and culture to thousands of travelers. If fulfilling travel dreams are our core business, our ethics ensure that this cannot be done in any way at the expense of the destinations' biodiversity, its people, and their cultural heritage.

SimienEcoTours believes the privilege of living and operating within a marvelous natural, historical and cultural heritage carries with it the responsibility of preserving it for generations to come and ensuring our business is significantly beneficial for the destinations and the communities living there and then the whole society at large. It is the responsibility of everyone to be painstaking about where they step and what impact this has on the world around them.

Acknowledging the power of tourism to change and improve lives, as well as the negative impacts it may generate, we place a strong emphasis on responsible tourism. Responsible Travel looks at minimizing negative impacts while maximizing the positive ones, always bearing in mind how our activities affect the places we are selling. Essentially, our idea of responsible tourism transcends conventional perceptions of travel, instead immersing clients in authentic experiences that mutually benefit locals and visitors.

Since its creation in 2014, SimienEcoTours has always been caring and willing to give back to the communities, increasing year after year our commitment. Starting from the foundation of SimienEcoTours we started working with social projects in Addis Ababa and in the Simien Mountains where our shareholders originate from contributing a share of our annual profits to the well-being of communities and nature. Since 2020 we are engaged with Travelife, and have achieved the certification in 2023, to run more sustainable tours all over Ethiopia.

If our decision was initiated by a genuine ethical attitude with respect as a basic principle, respect towards our hosts, nature and Ethiopia's fantastic natural, historical and cultural heritages we marvel at every day, it also makes perfect business sense; these are our main assets and it is not only our duty but also our interest to nurture them. We truly believe responsible tourism is the future of travel, bringing people closer together and developing a style of travel that is conducive to make the world a better place.

As a destination management company catering for travelers and tourism businesses, we can influence the choice of consumers, practices of suppliers and the development of destinations. This unique position enables us to contribute to sustainable development and the protection of the environmental and cultural resources of our destinations.

We are fully aware our responsible approach is an on-going process that requires continuous commitment from our teams, as well as from our business partners. As such we wish to actively encourage you, our clients and suppliers to help us achieve the best through your own contributions and your feedback on how we could together increase our positive impacts.

Our Vision

Our vision is to become a driving force for a better and sustainable tourism in Ethiopia.

Our Mission

We as founders of SimienEcoTours are 4 Ethiopians and 2 Europeans, brought together by our social and ecological commitment in Ethiopia and our love for this country. With our background and experience in different fields and sectors we give to our clients from all over the world a deep insight into the rich Ethiopian culture and nature. Each of our destinations in Ethiopia consists of a firm idea, a pleasure to explore landscapes and cultures that we want to preserve and communities and economies that we want to support.

For some years now our network is extending in all directions of Ethiopia and beyond. People from various cultures and different social environments are involved, such as cooks, cleaners, porters, drivers, cultural guides, muleteers, coordinators, assistants, mountain guides, and each one of you who joins us on a tour.

For us it is an important concern to treat all persons, who are involved in this teamwork with their professional and hard endeavour, with respect and fair payment, because only then we all can be part and not just consumers of this network.
